SUMMARY

Motivated B.Tech Computer Science Engineering (AI & ML) student with strong academic performance (CGPA: 8.98) and foundational knowledge in programming, data structures, and web development. Interested in Artificial Intelligence, Machine Learning, and Software Development. Seeking an internship opportunity to apply technical skills, contribute to innovative projects, and gain hands-on research and development experience.

TECHNICAL SKILLS

Programming Languages:

- C
- Java.

Web Development:

- HTML
- CSS
- JavaScript (Basics)

Tools & Platforms:

- VS Code
- Code Blocks
- Jupyter Notebook
- Git (Basic)

EDUCATION

B.Tech in Computer Science Engineering(AI & ML)

Aug 2024 - 2028

- 2nd year at CMR College of Engineering and Technology
- 8.98 CGPA in First year

Intermediate in MPC

2022 - 2024

- Sigma Junior College ,Hanamkonda (98.6%)

PROJECTS

Project Title: Lost Linker

Description:

Lost Linker is a web-based lost-and-found application designed to help users report and recover lost items efficiently.

Note / Contribution (Honest & Professional):

- Developed under the guidance of seniors and faculty
- Actively participated in understanding requirements and system design
- Contributed to frontend development and basic backend integration
- Learned full project lifecycle and teamwork practices

Technologies Used:

HTML, CSS, JavaScript, Backend Framework, Mongo DB

ACADEMIC ACTIVITIES

- Practicing data structures and algorithm problems to improve problem-solving ability.
- Learning advanced Java programming concepts.
- Exploring Artificial Intelligence and Machine Learning fundamentals.
- Building small web development projects for skill improvement.

ACHIEVEMENTS

- Secured 98.6% in Intermediate (MPC).
- Maintaining 8.98 CGPA in first year of B.Tech.
- Actively participating in coding practice and technical learning.
- Selected for Final Round – 24-Hour Hackathon (2026) and collaborated with a team to build a prototype software solution.

AREAS OF INTEREST

- Artificial Intelligence
- Machine Learning
- Software Development
- Data Structures & Algorithms
- Web Development

SOFT SKILLS

- Problem Solving
- Teamwork
- Communication Skills
- Adaptability
- Quick Learning

ADDITIONAL INFORMATION

Highly motivated to work on research-oriented and real-world software projects. Interested in gaining exposure to advanced computing technologies through internships and collaborative development environments.
